Invitation for invited Talk

Inbox x

Director AVIPS <directoravips@shobhituniversity.ac.in>

to me

Dear Dr. Sanjay Kumar

I hope this message finds you in good health. On behalf of AVIPS, Shobhit University Gangoh I would like to extend a cordial invitation to you to deliver an invited talk to our students and faculty. Your expertise in the field of pharmacy would be invaluable in enriching their knowledge and providing them with deeper insights into [Introduction to Suspected ADR reporting form & mobile App].

We would be honored to have you speak on 10 Oct 2024. Kindly let us know if you would be willing to share your knowledge and experience with us, and any specific requirements you may have for the session.

Thank you for considering our invitation. We look forward to your positive response and to hosting you at our institution.

Warm regards,

Prof. (Dr.) Bhupendra Chauhan

Director

Adarsh Vijendra Institute of Pharmaceutical Sciences

(A constituent institute of Shobhit University)

Shobhit University, Gangoh, Saharanpur-247341 UP

Report on Guest Lecture Delivered by Dr. Sanjay Kumar on Adverse Drug Reactions (ADR)

Date: 10 October 2024

Venue: Adarsh Vijendra Institute of Pharmacy, Shonhit University, Gangogh, Saharanpur Uttar Pradesh

Introduction:

On October 10, 2024, **Dr. Sanjay Kumar**, Director cum principal, Gautam College of Pharmacy, Hamirpur, Himachal Pradesh, delivered an insightful guest lecture at the **Adarsh Vijendra Institute of Pharmacy, Shonhit University, Gangogh, Saharanpur Uttar Pradesh**. The lecture was specifically aimed at **B. Pharm final year** and **M. Pharm students** and focused on the critical topic of **Adverse Drug Reactions (ADR)**.

Dr. Kumar, a distinguished academic and expert in the field of pharmacy, shared his vast knowledge on the complexities surrounding ADRs. He began by explaining the significance of ADRs in the pharmaceutical industry and healthcare, emphasizing the need for pharmacists to be vigilant in identifying, reporting, and managing these reactions to ensure patient safety.

Key Highlights of the Lecture:

- 1. Introduction to ADRs:** Dr. Kumar explained the definition, classification, and types of ADRs, including dose-related, non-dose-related, and delayed ADRs. He discussed the physiological and pharmacological factors that contribute to the occurrence of ADRs.
- 2. Importance of ADR Monitoring:** Stressing the importance of **Pharmacovigilance**, Dr. Kumar underscored the role of ADR monitoring in the prevention of medication errors and the reduction of adverse effects. He explained how a robust pharmacovigilance system helps in early detection and reporting of ADRs, which is vital for the safety of patients.
- 3. Case Studies:** The session was further enriched with real-life case studies on ADRs, which provided students with practical insights into the implications of ADRs in clinical practice. Dr. Kumar emphasized the importance of thorough patient counselling and regular monitoring of drug therapy to mitigate risks.
- 4. Regulatory Aspects:** Dr. Kumar touched upon the **regulatory guidelines** for ADR reporting in India and internationally, explaining the roles of regulatory authorities such as the **Central Drugs Standard Control Organization (CDSCO)** and the **World Health Organization (WHO)** in ensuring drug safety.
- 5. Role of Pharmacists in ADR Management:** He concluded the lecture by highlighting the crucial role pharmacists play in managing ADRs. He encouraged the students to develop skills in **ADR documentation**, analysis, and risk management, as this would not only enhance patient care but also improve the overall healthcare system.
